RESPONSE TO RESTRICTION REQUIREMENTCommissioner for Patents
P.O. Box 1450
Alexandria VA 22313-1450

Sir:

By Official Action mailed *June 9, 2005*, restriction to one of the following inventions is required:

- Group I:** Claims 1-5, drawn to a slurry composition, classified in class 524, subclass 413.
- Group II:** Claims 6-7, drawn to a method of using the composition, classified in class 264, subclass 288.4
- Group III:** Claim 8, drawn to an electronic device, classified in class 361, subclass 437.

In response, Applicants hereby elect Group I, upon which claims 1-5 are readable.

The Restriction Requirement between Inventions I and II is *traversed*, because the Examiner has failed to demonstrate *why* the hypothetical process mentioned at the end of paragraph

Application No.: 10/664,907

Docket No.: 2336-203

2 of the Restriction Requirement can be regarded as a *materially* different process. Applicants are, therefore, not persuaded that a proper Restriction Requirement has been set forth.

Likewise, the Restriction Requirement between Inventions II and III is traversed, because the Examiner has failed to demonstrate *why* the hypothetical product mentioned at the end of paragraph 4 of the Restriction Requirement can be regarded as a *materially* different product. Applicants are, therefore, not persuaded that a proper Restriction Requirement has been set forth.

In view of the above, withdrawal of the Restriction Requirement and consideration of all claims pending in the instant application are believed appropriate and therefore courteously solicited.

Early examination on the merits is respectfully requested.

To the extent necessary, a petition for an extension of time under 37 C.F.R. 1.136 is hereby made. Please charge any shortage in fees due in connection with the filing of this paper, including extension of time fees, to Deposit Account 07-1337 and please credit any excess fees to such deposit account.

Respectfully submitted,
